

ALCHEMY

Bringing Heaven to Earth

Tonic Gold™ is created through the science of alchemy, or divine chemistry, which recognizes the presence of spirit in matter and the interconnectedness of all things. Using closely guarded alchemical secrets, the alchemist is able to capture the universal life force in physical form, producing the extraordinarily rare substance known as Potable Gold. Alchemical texts are filled with descriptions of the precious, life-promoting properties of Potable Gold, which is said to enhance physical, emotional and spiritual health. Over the centuries, the knowledge necessary to create Potable Gold has been attained by only a few great alchemists.

14th Century Alchemist,
Guillaume Perrier

PETRI MURIEN Alchemist

Petri Murien is one of the world's foremost traditional alchemists. He studied alchemy with masters in both the Eastern and Western traditions. His work of 30 years is a continuation of that of Paracelsus, the famous 16th century alchemist, and Rudolf Steiner, the 20th century founder of Anthroposophic Medicine and Waldorf Education.

Petri applies authentic alchemical secrets in formulating Tonic Gold. The process takes many months and requires Petri's unique expertise to capture the universal essence and create this powerful golden elixir, a potion which contains the intelligence and life force inherent in Potable Gold. Petri handcrafts Tonic Gold in limited quantities in his laboratory in India.

THE FORMULA*

Tonic Gold blends Potable Gold and oakwood salts with the oils of ten botanicals revered since ancient times for their healing effects. Potable Gold, by nature, activates and potentiates the chemistry of the herbs, making their healing properties fully available to the body.

These herbal oils, many of which are imported from France and Italy, are of the finest quality available. Great attention is paid to extraction methods and quality control.

Aromatic oils of orange and lemon fruits:
cooling digestive support

Spice oils of ginger, cardamom, anise and clove:
energizing aromatics

Pungent oils of chili and black pepper:
warming and stimulating elements

Exotic oils of bitter melon and turmeric:
tonics

FREQUENTLY ASKED QUESTIONS

Q: What makes Tonic Gold different from herbal supplements?

A: Tonic Gold is more than an herbal supplement. It is a transformational substance that acts on the body, mind and spirit. The herbs in Tonic Gold, themselves powerful health sustainers, are the carrier for Potable Gold, the active ingredient.

Q: What is Potable Gold?

A: Potable Gold is spirit that has been transformed into matter by a genuine alchemist. This universal substance has been specially prepared so that it can be readily absorbed by the human body.

Q: What is alchemy and how does it differ from other healing traditions?

A: An ancient science, alchemy is practiced in many cultures. Alchemy incorporates aspects of chemistry, medicine, physics, astrology, geology, metallurgy and spiritual knowledge. An alchemist replicates universal physical and spiritual processes in an accelerated and highly focused manner, producing unique substances that are not attainable through any other method.

Q: Why is alchemy so little known?

A: Many pioneers in medicine and science have studied alchemy, but the tradition became obscured over the last few centuries by an exclusively mechanistic approach to science. In the 20th century, Carl Jung revived the world's interest in alchemy and, in recent decades, genuine alchemical formulations are becoming available to the general public for the first time.

Q: What are the directions for using Tonic Gold and how does it taste?

A: The recommended daily amount is 1-5 drops. Tonic Gold has a pleasant taste — slightly spicy with a hint of anise.

“Petri Murién is one of the few genuine living practitioners of the ancient science of alchemy. I have found his Tonic Gold elixir to have wonderful healing and balancing properties that benefit body, mind and spirit. I can recommend this excellent product to those seeking greater harmony, mental clarity, and physical resilience and health.”
